

## 0.2mm Layer 3D Printing Products STL File Format

Our Product Introduction

for more products please visit us on [precision-cncparts.com](http://precision-cncparts.com)

### Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: ywy123
- Minimum Order Quantity: 1 Perch/Perches
- Price: USD 3.88-32.88 1 Perch/Perches
- Packaging Details: Carton packaging and blister box
- Delivery Time: 10-15work days
- Payment Terms: L/C D/A D/P T/T Western Union MoneyGram
- Supply Ability: 1000 Perch/Perches 10-15work days

### Product Specification

- Color: White
- Printing Layer: 0.2mm
- Design Software: SolidWorks
- Lead Time: 7-10 Days
- MOQ: 1 Piece
- Printing Technology: FDM
- File Format: STL,IGS,STP
- Material: PLA
- Highlight: 0.2mm Layer 3D Printing Products, STL File 3D Printing Products

## Product Description

### Product Description:

3D Printed Goods are three-dimensional parts, components and items that are created through 3D printing technology. 3D printed parts offer a cost-effective and efficient way to manufacture a wide range of components and items. Our 3D Printed Parts are made with FDM (Fused Deposition Modeling) Printing Technology, which offers the advantage of easy customization and modification, and can be printed in a variety of file formats such as STL, IGS, and STP. Our 3D Printed Parts are designed for industrial applications and are made of PLA (polylactic acid) material in white color.

### Features:

**Product Name:** 3D Printed Parts

**Application:** Industrial

**Material:** PLA

**MOQ:** 1 Piece

**Tolerance:**  $\pm 0.2\text{mm}$

**Color:** White

### Technical Parameters:

Attributes	Specification
Design Software	SolidWorks
Post-Processing	Sandblasting
Application	Industrial
Size	Customized
Printing Layer	0.2mm
Lead Time	7-10 Days
Tolerance	$\pm 0.2\text{mm}$
File Format	STL, IGS, STP
Color	White
Surface Finish	Smooth

### Applications:

3D Printed Parts from ywy

ywy is a leading provider of three-dimensional parts with its 3D Printed Parts. Our 3D Printed Parts are produced to the highest standards, with a model number of ywy222, and a place of origin in Guangdong Huizhou. Our 3D Printed Parts can be produced in a variety of file formats, such as STL, IGS, and STP, with a tolerance of  $\pm 0.2\text{mm}$  and post-processing options such as sandblasting. The surface finish is smooth, and our 3D Printed Parts are made from PLA material.

These 3D Printed Parts from ywy are ideal for many different applications. The accuracy and detail of the parts make them suitable for a range of uses, from prototyping to production. They are also cost-effective, requiring minimal setup and no additional tooling. Furthermore, the finish and durability of the parts make them suitable for a variety of industries, including automotive, medical, and aerospace.

At ywy, our 3D Printed Parts are of the highest quality, with an unbeatable combination of accuracy, detail, and cost-effectiveness. We strive to provide our customers with the best possible 3D Printed Parts, ensuring that their products are of the highest quality.

### Customization:

Ywy 3D Printed Parts Customization Service

Ywy provides 3D Printed Parts Customization Service, which can produce three-dimensional parts with high precision.

**Brand Name:** ywy

**Model Number:** ywy222

**Place of Origin:** Guangdong, Huizhou

**Tolerance:**  $\pm 0.2\text{mm}$

**Size:** Customized

**Design Software:** SolidWorks

**Lead Time:** 7-10 Days

**Application:** Industrial

Ywy 3D Printed Parts Customization Service can meet your most demanding requirements in terms of accuracy, speed and cost.

### Support and Services:

3D Printed Parts provides technical support and services for 3D printing products and services. Our technical team is available to answer any questions you may have about 3D printing and its applications. We offer a variety of support services such as:

Remote troubleshooting and technical support for 3D printing products.

Consulting services for 3D printing applications.

Training and tutorials on the use of 3D printing products.

Printing and design services.

Our team of experts is highly trained and knowledgeable in the field of 3D printing. We strive to provide our customers with the best possible service and support for their 3D printing needs. For more information about our services, please contact us today.
