

Automotive Die Cast Parts 3D 2D Drawing CNC Machining

Our Product Introduction

for more products please visit us on precision-cncparts.com

Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: ywy123
- Minimum Order Quantity: 1 Perch/Perches
- Price: USD 3.88-32.88 1 Perch/Perches
- Packaging Details: Carton packaging and blister box
- Delivery Time: 10-15work days
- Payment Terms: L/C D/A D/P T/T Western Union MoneyGram
- Supply Ability: 1000 Perch/Perches 10-15work days

Product Specification

- Application: Automotive, Electronics, Industrial, Etc.
- Surface Finish: Polishing, Anodizing, Plating, Painting, Etc.
- Package: Wooden Case/Pallet
- Pressure: 0-500T
- Tolerance: ± 0.01 mm
- Processing: Die Casting, CNC Machining, Etc.
- Size: Customized
- Weight: 0.1-50kg
- Highlight: **Automotive Die Cast Parts,
3D Drawing Die Cast Parts**

Product Description

Product Description:

Die Casting Components are metal parts produced through die casting process, which involves the use of metal injection moldings, sand castings, gravity castings and other casting methods. The components produced are of good quality and accuracy, with weight ranging from 0.1kg to 50kg. They can be machined further through CNC machining for better surface finish such as polishing, anodizing, plating and painting. The mold life of die casting components reaches up to 50,000 to 1,000,000 shots. We can provide delivery service by sea, air or express, providing customers with a fast and reliable shipping experience.

Features:

Product Name: High-pressure Die Castings

Material: Aluminum, Zinc, Magnesium, Copper, Etc.

Design: 3D/2D Drawing

Payment: T/T, L/C, PayPal, Etc.

Size: Customized

Application: Automotive, Electronics, Industrial, Etc.

Magnesium Alloy Castings

Die Casting Molds

High-precision Casting

Technical Parameters:

Technical Parameters	Descriptions
Tolerance	±0.01mm
Design	3D/2D Drawing
Processing	Die Casting, CNC Machining, Etc.
Weight	0.1-50kg
Shipping	By Sea/Air/Express
Size	Customized
Surface Finish	Polishing, Anodizing, Plating, Painting, Etc.
Application	Automotive, Electronics, Industrial, Etc.
Lead Time	7-15 Days
Package	Wooden Case/Pallet
Castings	Sand Castings

Applications:

ywy brand Die Casting Components are ideal for a wide variety of industries, from automotive to electronics and industrial. With a model number of ywy444, these components are crafted with high-quality materials such as magnesium alloy castings, aluminum alloy castings, and zinc alloy castings, and can bear pressure up to 500T. With a tolerance of ±0.01mm and 3D/2D drawing design, these components offer great accuracy and detail. Moreover, these components can be shipped by sea, air, or express, making them perfect for global businesses. With ywy Die Casting Components, you can be sure of getting the best components for your business.

Customization:

Customized Die Casting Components from YWY

Product Details:

Brand Name: YWY

Model Number: YWY444

Place of Origin: Guangdong, Huizhou

Shipping: By Sea/Air/Express

Tolerance: ±0.01mm

Pressure: 0-500T

Design: 3D/2D Drawing

Weight: 0.1-50kg

Process: Lost Wax Castings, Aluminum Alloy Castings, Low-pressure Castings, Sand Castings

Support and Services:

Technical Support & Services for Die Casting Components

At our die casting facility, we provide comprehensive technical support and services to ensure that our customers receive the highest quality die casting components. Our experienced team of engineering professionals can provide expert guidance and support to help you with all your die casting needs.

We offer technical support to help you design and develop components to meet your exact specifications. Our technicians can also advise you on the best die casting process to use for your application. Additionally, we can provide assistance in troubleshooting die casting problems, and optimizing production processes.

Our experienced technicians specialize in providing quality assurance services for die casting parts. We offer inspections and testing of components to ensure they meet your exact requirements. We also offer post-production services, such as deburring, machining, and anodizing.

Our die casting facility is committed to providing high-quality service and support to meet the needs of our customers. Contact us today to learn more about our technical support and services.
