

## Precision Injection Molding Services Multi Cavity Mold Life 500k-1M Shots

Our Product Introduction

For more products please visit us on [precision-cncparts.com](http://precision-cncparts.com)

### Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: ywy333

### Product Specification

- Service Type: Injection Molding Services
- Weight: Max. Mold Weight: 10,000kg
- Surface Finish: Polishing, Texturing, Painting, Etc.
- Mold Life: 500,000-1,000,000 Shots
- Material: ABS, PC, PP, PA, POM, Etc.
- Process: Injection Molding, Overmolding, Insert Molding, Etc.
- Cavity: Single Or Multi-Cavity
- Lead Time: 3-4 Weeks
- Highlight: **Precision Injection Molding Services ,  
Multi Cavity Injection Molding Services**

## Product Description

### Product Description:

Our state-of-the-art equipment includes CNC, EDM, Wire-Cutting, and more. This ensures that we can handle all of your Injection Molding needs, no matter the complexity or size of your project. Our Max. Mold Size is an impressive 1500 X 1200mm, meaning we can tackle even the largest Injection Molding projects with ease.

At our Injection Molding Service, we use only the highest quality Mold Base materials, including LKM, HASCO, and DME. This ensures that your parts are of the highest quality and accuracy, every time. We offer both single and multi-cavity options, depending on your specific needs and preferences.

Our team of experts is dedicated to providing you with the best possible Injection Molding Service. We work closely with our clients to ensure that we fully understand their needs and requirements, so that we can deliver the best possible results. We pride ourselves on our attention to detail, ensuring that every part we produce meets our high standards of quality.

With our Injection Molding Service, you can rest assured that your project is in good hands. We offer competitive pricing and fast turnaround times, so you can get your parts when you need them. Whether you need a few parts or thousands, we are here to help.

Contact us today to learn more about our Injection Molding Service and how we can help you with your next project. We are committed to providing you with the best possible service and results, every time.

### Features:

Product Name: Injection Molding Services

Software: UG, Pro/E, SolidWorks, Etc.

Cavity: Single Or Multi-Cavity

Service Type: Injection Molding Services

Mold Base: LKM, HASCO, DME, Etc.

Equipment: CNC, EDM, Wire-Cutting, Etc.

This product provides Plastic Injection Molding Services for the Injection Molding Process. Our team utilizes software such as UG, Pro/E, and SolidWorks to create custom molds with Single or Multi-Cavity options. We use Mold Bases such as LKM, HASCO, DME, and equipment such as CNC, EDM, and Wire-Cutting to ensure high-quality results for our Plastic Molding Injection services.

### Technical Parameters:

Weight	Max. Mold Weight: 10,000kg
Tolerance	±0.05mm
Service Type	Injection Molding Services
Material	ABS, PC, PP, PA, POM, Etc.
Mold Life	500,000-1,000,000 Shots
Equipment	CNC, EDM, Wire-Cutting, Etc.
Size	Max. Mold Size: 1500 X 1200mm
Surface Finish	Polishing, Texturing, Painting, Etc.
Lead Time	3-4 Weeks
Process	Injection Molding, Overmolding, Insert Molding, Etc.

### Applications:

Our molding injection service is perfect for anyone looking to create high-quality, custom plastic parts for their projects. Whether you need a single part or a large batch, we can deliver quickly and efficiently, with a lead time of just 3-4 weeks.

Our plastic molding injection services are highly versatile, allowing us to create parts from a range of materials, including ABS, PC, PP, PA, POM, and more. We can also provide a range of surface finishes, including polishing, texturing, and painting, to ensure your parts look and function exactly as you need them to.

Our injection plastic molding services are suitable for a wide range of industries and applications. From automotive and medical to consumer electronics and beyond, we can create custom parts that perfectly meet your needs.

Our overmolding and insert molding services are also available, allowing us to create complex parts that combine multiple materials and functions.

Our ywy333 product is made in guangdonghuizhou, ensuring the highest quality standards and attention to detail. With a max mold weight of 10,000kg, we can handle even the largest and most complex projects with ease.

Choose ywy for all your plastic molding injection needs, and experience the best in quality, efficiency, and customer service.

### Customization:

Model Number: ywy333

Place of Origin: guangdonghuizhou

Service Type: Injection Molding Services

Process: Injection Molding, Overmolding, Insert Molding, Etc.

Material: ABS, PC, PP, PA, POM, Etc.

Size: Max. Mold Size: 1500 X 1200mm

Mold Life: 500,000-1,000,000 Shots

At ywy, we offer Plastic Molding Injection services to meet your unique needs. Our Injection Molding Services include Injection Molding, Overmolding, Insert Molding, and more. We work with a variety of materials such as ABS, PC, PP, PA, POM, Etc. Our max. Mold Size is 1500 X 1200mm, and our Mold Life ranges from 500,000-1,000,000 Shots. Trust us for all your Molding Plastic Injection needs.

## Support and Services:

Our Injection Molding Services product comes with comprehensive technical support and services to ensure optimal performance and longevity of the equipment. Our experienced technicians are available to answer any questions and provide guidance on maintenance, troubleshooting, and process optimization. We offer training programs for operators and maintenance personnel to ensure that our customers have the knowledge and skills necessary to operate and maintain the equipment efficiently. In addition, we provide spare parts and repair services to minimize downtime and keep the equipment running smoothly. Our goal is to provide our customers with the highest level of support and service to maximize the return on their investment.

## Packing and Shipping:

Product Packaging:

Our injection molding services products are carefully packaged in high-quality materials to ensure they arrive at your doorstep in excellent condition. We use sturdy cardboard boxes with cushioning materials to protect your products during transportation. Additionally, we label each box with a clear and concise label to ensure easy identification of the contents.

Shipping:

We offer reliable shipping services to our customers. We partner with trusted logistics companies to ensure your orders are delivered on time and in perfect condition. Our shipping options include standard and expedited shipping, and we ship to most locations worldwide. We also provide tracking information so you can follow your order's progress from our facility to your doorstep.

## FAQ:

Q: What is the brand name of the injection molding service?

A: The brand name of the injection molding service is ywy.

Q: What is the model number of the injection molding service?

A: The model number of the injection molding service is ywy333.

Q: Where is the place of origin of the injection molding service?

A: The place of origin of the injection molding service is Guangdong Huizhou.

Q: What types of materials can be used in the injection molding process?

A: Materials such as plastics, rubber, and metal can be used in the injection molding process.

Q: What is the maximum size of the injection molding parts that can be produced?

A: The maximum size of the injection molding parts that can be produced depends on the specific capabilities of the machine being used, but generally, parts up to several feet in size can be produced.
