

Customized Size CNC Stainless Steel Parts Polishing Surface Treatment For Industrial Equipment

Our Product Introduction

For more products please visit us on precision-cncparts.com

Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: cnc303

Product Specification

- Package: Carton/Wooden Box
- Shipping: By Sea/Air/Express
- MOQ: 1 Piece
- Inspection: 100% Inspection
- OEM/ODM: Acceptable
- Application: Industrial Equipment
- Drawing Format: PDF/DWG/IGS/STP
- Material: Stainless Steel
- Highlight: **Industrial Equipment CNC Stainless Steel Parts,
Customized Size CNC Stainless Steel Parts**

Product Description

Product Description:

Our stainless steel CNC machining process ensures precision and accuracy, with a tolerance of $\pm 0.01\text{mm}$. This means you can trust our parts to perform reliably and consistently, even in the most challenging industrial environments.

Our CNC stainless steel parts are suitable for a wide range of industrial applications, from heavy machinery to medical equipment. We use only the highest quality stainless steel materials, ensuring long-lasting durability and resistance to wear and tear.

Our parts come packaged in your choice of carton or wooden box, depending on your preference and shipping needs. And with a lead time of just 7-15 days, you can rest assured that your order will be delivered quickly and efficiently.

When you need precision-engineered stainless steel parts for your industrial equipment, trust the experts at our CNC machining facility. We use the latest technology and techniques to ensure the highest-quality parts, every time.

Features:

Product Name: CNC Stainless Steel Parts

Size: Customized

Processing Method: CNC Machining

Inspection: 100% Inspection

Tolerance: $\pm 0.01\text{mm}$

Lead Time: 7-15 Days

Features:

High Quality Stainless Steel Part

Stainless Steel CNC Machined Part

Customized Size

Tight Tolerance of $\pm 0.01\text{mm}$

100% Inspection to Ensure Quality

Fast Lead Time of 7-15 Days

Technical Parameters:

Product Name:	CNC Stainless Steel Component
Material:	Stainless Steel
Processing Method:	CNC Machining
Surface Treatment:	Polishing
Size:	Customized
Drawing Format:	PDF/DWG/IGS/STP
Application:	Industrial Equipment
OEM/ODM:	Acceptable
Package:	Carton/Wooden Box
Lead Time:	7-15 Days
MOQ:	1 Piece

Applications:

The CNC Stainless Steel Parts product is highly versatile and can be used in a variety of applications. It is commonly used in the automotive industry for engine parts, exhaust systems, and suspension components. It is also used in the aerospace industry for aircraft parts such as landing gears, engine mounts, and structural components. In addition, it is commonly used in the medical industry for surgical instruments and implants due to its corrosion resistance and biocompatibility.

The product is available in various sizes and can be customized to meet the specific needs of customers. The MOQ for this product is 1 piece which makes it accessible for both small and large scale operations. OEM and ODM services are also available for customers who require specialized designs or unique specifications.

The lead time for this product is 7-15 days which ensures that it can be produced quickly and efficiently to meet customer demand. The drawing format for this product is PDF/DWG/IGS/STP which allows for easy communication and collaboration between customers and manufacturers.

The ywy cnc303 CNC Stainless Steel Parts product is a high quality stainless steel fabricated part that is suitable for a wide range of applications. Its durability, precision, and customization options make it an ideal choice for industries such as automotive, aerospace, and medical. With a quick lead time and flexible OEM/ODM services, this product is a reliable solution for all your stainless steel part needs.

Customization:

Support and Services:

Our CNC Stainless Steel Parts product comes with comprehensive technical support and services to ensure that our customers get the most out of their purchase. Our team of experts is available to answer any questions you may have about the product, provide guidance on installation and usage, and troubleshoot any issues that may arise. Our technical support includes both online resources and phone support for more complex issues.

In addition to technical support, we also offer a range of services to help our customers get the most value from their purchase. These services include custom design and engineering, prototyping, and production runs. We strive to provide a complete solution to our customers' needs and work closely with them to ensure their satisfaction.

Overall, our technical support and services for the CNC Stainless Steel Parts product are unmatched in the industry. We are committed to providing our customers with the highest level of support and service to ensure their success.

Packing and Shipping:

Product Packaging:

All CNC stainless steel parts will be carefully packaged in individual plastic bags to prevent scratches and damage during shipment.

The parts will then be placed in a sturdy cardboard box with ample padding to ensure safe transportation.

The box will be securely sealed with tape and labeled with the product name and any necessary handling instructions.

Shipping:

All orders will be processed within 24 hours and shipped via a reputable courier service.

Customers will receive a tracking number once their order has been shipped.

Standard shipping times are 3-5 business days, but expedited shipping options are available for an additional fee.

Please note that any customs or import duties are the responsibility of the customer.

FAQ:

Q: What is the brand name of the CNC Stainless Steel Parts?

A: The brand name of the product is ywy.

Q: What is the model number of the CNC Stainless Steel Parts?

A: The model number of the product is cnc303.

Q: Where is the CNC Stainless Steel Parts manufactured?

A: The product is manufactured in guangdonghuizhou.

Q: What is the material used for the CNC Stainless Steel Parts?

A: The material used for the product is stainless steel.

Q: What is the production lead time for the CNC Stainless Steel Parts?

A: The production lead time for the product varies depending on the quantity ordered. Please contact us for more information.
